"Popologetics" is released. And the first review!

Hey All,

Popologetics was released on May 7th in the States (but for some reason, some sellers on amazon.com were already selling it as a "used-like new" book...on the day it was released). Anyway, it's available. My publisher told me it should be available as an e-book in a week or two.

By the way, theo-blogger Aimee Byrd has the honor of being the first to review my book. It's dated May 4th, so I'm not sure how she read all 368 pages of it that fast (she must be an uber-fast reader). But I think it's a fair and balanced review. She gets the gist of the book, and that's good to see. You can find her review here: http://www.housewifetheologian.com/book-review-7/ [1]

Let me know in the comments if you find any other helpful reviews.

Peace,

Ted
